SUMMARY

Full-stack developer in training with hands-on experience in Java, JSP, Servlets, MySQL, and JavaScript. Built and shipped a hospital appointment booking system end-to-end using REST-style CRUD operations and OOP principles during an internship. Currently strengthening Data Structures & Algorithms in Java for placement readiness, with a growing GitHub portfolio and working knowledge of Agile development practices.

SKILLS

Programming Languages: JavaScript Java Python SQL	
Web Development: HTML CSS Bootstrap JSP	Concepts: OOP Data Structures & Algorithms
Databases: SQL Supabase	OS: Linux Windows
	Version Control & Tools: Git GitHub VS Code

PROJECTS

Hospital Appointment Booking System <i>Tech Stack: JSP Java HTML SQL Gemini AI</i> - Developed the Apollo Hospital Appointment Booking System, a full-stack Java application enabling patients to book appointments with real-time scheduling and record management.	June/2026
Billing Management System <i>Tech Stack: HTML JavaScript SQL</i> - Designed a billing management system with automated invoice generation, tax calculation, and customer transaction tracking for efficient business billing.	Aug/2025
E-Commerce Shopping Website <i>Tech Stack: HTML CSS Basic JavaScript Bootstrap</i> - Designed an e-commerce shopping website with product browsing, cart management, and secure user authentication for a seamless online shopping experience.	Sep/2024

EXPERIENCE

NEURA GLOBAL, Artificial Intelligence Intern - Built and trained machine learning models as part of the AI internship, gaining hands-on experience with model development and evaluation workflows. - Worked remotely in a collaborative environment, applying core ML concepts to real-world AI problems.	Feb/2026 - Mar/2026 Remote
NEXTGEN, Java Full Stack Developer Intern - Developed a full-stack hospital appointment booking application for Apollo Hospital using Java, JSP/Servlets, and MySQL, covering both frontend and backend. - Designed the database schema and JSP-based dynamic pages to handle appointment scheduling, patient records, and end-to-end booking workflows.	Jun/2026 - Jul/2026

EDUCATION

B.E. Computer Science and Engineering Pursuing, Annai Mira College Of Engineering And Tech CGPA: 8.20 (Till 5th Sem)	2027
HSC, GVC HR SEC SCHOOL Score: 70%	2023

ACHIEVEMENTS

Detection of Eye Diseases Using Deep Learning and Transfer Learning Approaches <i>Third International Conference on Cyber and Information Security (ICCIS-3.0)</i> Presented a research paper, "Detection of Eye Diseases Using Deep Learning and Transfer Learning Approaches," at ICCIS-3.0 2025, organized by the PG Dept of Data Science, Dwaraka Doss Goverdhan Doss Vaishnav College (DDGDVC), held on 09.09.2025.	2025
---	------

PROBLEM SOLVING

Solved 25+ DSA problems in Java (Arrays, Strings, Hashing)

CERTIFICATIONS

Programming in Java: Udemy | Programming in Python: Udemy | Full Stack Development: Intern
